Installing the Learning Toolbox (LTB) App on your phone or tablet

- Get the Learning Toolbox app from your App Store (App Store for iPhones and Play Store for Android). Just open your app store search for ‘Learning Toolbox’ and install the free app that has this icon.
  - At the moment Learning Toolbox is not available as an App for Microsoft phones, but you can still use it through a browser. I will explain on Monday if anyone has a Microsoft phone.

Creating an LTB account

1. Open the Learning Toolbox app on your mobile device.
2. Click on the 3 dots icon in the top right of the screen to open this dropdown menu.
3. Choose ‘Log In’.
4. Then from the next menu choose the ‘Create an account’ option.
5. You will be asked for your name and email address.
6. An email will then be sent to this email address asking you to follow a link to set your password. Please check your spam or clutter folder if you cannot find the email in your inbox.
7. Once you have followed the link in the email and set up your password then your account set-up is complete, and you will be ready to start building Learning Toolbox stacks!

This handout was used in the LTN workshop session run by Tamsin Treasure-Jones on 23/1/2017.
