Demo to AMEE, Dundee, November 2016

Our study suggested that informal learning at the workplace is an important learning metaphor in healthcare and that tools can help staff to manage the raising learning demands. Find out more by exploring this ePoster.

Exploitation Healthcare ePoster

How stack was used

This stack was used to demonstrate to the Association of Medical Education in Europe (AMEE) Board and eLearning Committee how LTB could be used to provide an ePoster solution for the AMEE conference. This stack (ePoster) was based upon a traditional poster that Learning Layer exhibited at AMEE 2016. Remodeled as an LTB stack (ePoster) it shows how much richer and more interactive the material can be,
